[EPA EFSA Neonics Workshop Agenda \(4-27-16\).docx](#)

Hello,

We're going to keep tomorrow's EFED neonics meeting to ½ hour (10:30 - 11) to allow the EFED biologists to discuss PMRA's comments on the clothianidin colony feeding study analysis and statistics (from 10 - 10:30). There is a separate invite set up for the detailed CFS meeting. There are quite a few neonics-wide agenda items and things to check in on, so we'll have to be prepared, efficient, and ready-to-go to fit as much as possible into our 30 minutes! I attempted to put the agenda items in priority order for the discussion, but we can adjust as needed.

Ex. 5 - Deliberative Process

Hello everyone,

This meeting will be a biweekly check-in for the imidacloprid, clothianidin, thiamethoxam, and dinotefuran teams across EFED. It can serve as a platform for coordination across teams and with PRD, a time to discuss technical issues and compare notes, and to help keep everyone engaged and on track as we continue to work through the neonic pollinator PRAs.

If you have any agenda topics, feel free to send them to me as they arise, and I can compile them as the meeting draws near. If there's nothing to discuss for a given date, we will cancel.

Thanks,
Monica
